

November 3, 2023

Dr. Ellen M. Granberg
President
George Washington University
1918 F Street, NW
Washington, DC 20052

Dear President Granberg,

We are writing to you on behalf of a dedicated group of George Washington University alumni. As proud graduates of GWU, we have maintained a strong connection to our alma mater and have consistently supported the university's endeavors.

We were deeply saddened by the recent campus demonstrations, which involved the promotion of pro-terrorism and anti-Semitic rhetoric. These demonstrations included organized rallies and the projection of images onto Gelman Library, which explicitly advocated for the destruction of Israel and its people. It is disheartening to see such hateful activities threatening the safety and well-being of Jewish students within a community that prides itself on inclusivity and diversity. These distressing occurrences have also highlighted that, at times, the concerns of Jewish students and the safety of the Jewish community have not received the serious attention they deserve. For example, the complaint filed by Jewish students against Dr. Lara Sheehi did not receive the responsiveness and action it warranted. Similarly, the disturbing incident in 2021, where individuals with hateful intentions broke into a Jewish fraternity house and defiled a Torah, should have served as a wake-up call. As alumni, we acknowledge that we remained silent for too long, trusting that the university would address these acts of hate more seriously.

Due to the seriousness of the situation and the growing concern within our alumni community, we are compelled to make the following requests:

1. We firmly call for an immediate, thorough, and transparent investigation into all anti-Semitic and anti-Israel actions on campus, such as the Gelman Library incident, and expect that those responsible be held accountable for their actions.
2. We request that the university administration outline a comprehensive plan to address these issues, including but not limited to implementing heightened safety measures and fortifying ethical standards, as well as promoting an understanding of what constitutes peaceful protest through events and education.
3. We want to see a clear plan outlining how GWU educators and individuals in positions of influence at the university intend to combat antisemitism and anti-Israel sentiment. It is essential that the university takes a proactive role in creating an environment where all students can feel safe and included.
4. We also request that the university ensure the plan includes robust mechanisms for the prompt reporting and handling of any future incidents related to antisemitism or any form

of hate speech on campus and that these mechanisms are communicated clearly to the GWU community. This will aid in preventing and addressing such incidents in a timely and effective manner, and ensure that future acts of hate will not be tolerated.

If these requests are not addressed promptly, the signatories of this letter will cease financial donations and the offer of mentorships, internships, or job opportunities for GWU.

Our commitment to the welfare and inclusivity of the university is unwavering, and we believe that our collective action can help drive positive change for the benefit of all members of the GWU community. We eagerly await your response and look forward to working together to ensure that our beloved university remains a source of pride for all of its alumni.

Sincerely,

GWU Alumni (signatures below)

Signed by 1269 GWU alumni (as of Friday November 17th).
